How to use SecureDocs Mobile App. in Smartphone.

1. Download and Install SecureDocs Mobile App from Play Store in Smartphone.

2. Open SecureDocs Mobile App in Smartphone.

3. Scan following NDMCD security key to register mobile app with NDMCD SecureDocs Application.

Scan the **Security Key** below with the SecureDocs mobile app to get started. Your **Security Key** is unique to your company. It prevents unauthorized users from scanning your codes.

4. Now you are able to scan Secure Mark (QR Code) and Serial Code (Bar Code) which are generated/printed by NDMCD SecureDocs application.
